OUR PROCESS FLOW

From Farm to World – Freshness You Can Trust

1 FARM SELECTION & PARTNERING

We work with trusted, GAP-compliant farms across Kenya to ensure consistent quality, traceability, and sustainable practices.

2 HARVESTING AT PEAK FRESHNESS

Produce is hand-harvested at the right maturity to ensure maximum freshness, flavor, and shelf life.

3 RECEIVING & QUALITY CHECK

Upon arrival at our facility, all produce undergoes strict quality inspection and sorting to meet export standards.

4 GRADING & SORTING

Produce is graded by size, color and quality. Only the best make it to the next stage.

5 PACKING WITH CARE

Fresh produce is carefully packed using food-safe materials to protect quality and extend shelf life.

6 COLD STORAGE (PRE-COOLING)

Packed produce is pre-cooled and stored in temperature-controlled rooms to lock in freshness before export.

7 DOCUMENTATION & COMPLIANCE

We prepare all export documents including Phytosanitary Certificate, Invoice, Packing List, and Certificates of Origin.

8 EXPORT LOGISTICS & TRANSPORT

We arrange cold-chain transport to the port or airport and ensure timely shipment via air or sea freight.

9 DELIVERY TO GLOBAL MARKETS

Our produce reaches you fresh, safe, and on time – ready to delight your customers.
